ZANDILE KHESWA

FULL-STACK DEVELOPER | PYTHON | AI ENGINEERING

North West, South Africa · **Email:** zandile.dev.sa@gmail.com · **Phone:** +27 79 743 8937
GitHub: github.com/zandilekheswa5-sudo · **LinkedIn:** linkedin.com/in/zandile-kheswa · **Portfolio:** Zandile.dev

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building web applications and Python-based projects, with a growing focus on AI application development and automation. Skilled in frontend development, backend technologies, API integration, database management and responsive UI design. Experienced in developing practical projects, including productivity tools, data-analysis applications and AI-assisted business solutions. Continuously expanding technical expertise through professional training in software development, Python and artificial intelligence.

TECHNICAL SKILLS

Programming Languages

Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend Development & UI/UX

React, Next.js, Vite, Tailwind CSS, Responsive Web Design, Component-Based Development, React Hooks, UI/UX Design, State Management

Backend Development & APIs

Node.js, Express.js, Flask, RESTful APIs, API Integration, JSON, CRUD Operations, Authentication, Frontend–Backend Integration

Databases & Data Management

SQL, Supabase, Firebase, Database Management, Database Queries, Data Persistence, Data Processing

AI & Generative AI

Artificial Intelligence, Generative AI, Prompt Engineering, AI Application Development, AI Automation, AI-Assisted Development

Python, Data Science & Machine Learning

Pandas, NumPy, Data Analysis, Data Collection, Data Extraction, Machine Learning Fundamentals, Model Evaluation

Software Engineering & Algorithms

Object-Oriented Programming (OOP), Data Structures & Algorithms, Algorithm Design, Recursion, Software Architecture, Debugging, Software Testing, Version Control

Development Tools & Deployment

Git, GitHub, Visual Studio Code, Vercel, npm, CI/CD, Cloud Computing

PROFESSIONAL EXPERIENCE

Frontend Web Developer | Hands-On Website Development

Selected website development work

Styled By Mama Bear — Beauty Booking Website

Technologies: React, Vite, Tailwind CSS

- Built a beauty booking website to showcase beauty services and support the customer booking experience.
- Developed a responsive interface and applied frontend development and UI/UX principles.

GitHub Repository: zandilekheswa5-sudo/styled-by-mama-bear · **Live Demo:** mama-bear-styles.lovable.app

GCALEKA Projects and Training (Pty) Ltd — Company Website

- Designed and developed a company website to present the business and its services.
- Organised content into clear sections to communicate the company's offerings and establish a professional online presence.

GitHub Repository: zandilekheswa5-sudo/GCALEKA · **Live Demo:** gcaleka.vercel.app

By Lovely Salon — Appointment Booking Demo

Technologies: React, Vite, Tailwind CSS

- Developed a salon appointment-booking demo with a customer booking flow and mobile-friendly interface.
- Created a demonstration admin dashboard for viewing and managing sample appointment information.

GitHub Repository: zandilekheswa5-sudo/by-lovely-salon · **Live Demo:** by-lovely-salon.vercel.app

Demonstration project using sample data; not a production booking system.

PROJECTS

FocusFlow — Productivity Dashboard

Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase, SQL, Vercel

- Developed a productivity dashboard for freelancers to manage tasks, priorities and deadlines.
- Implemented task creation, updates, deletion, search and filtering, due dates, overdue indicators and progress tracking.
- Integrated Supabase for authentication and database management, with dashboard analytics.

GitHub Repository: zandilekheswa5-sudo/focusflow

Styled By Mama Bear — Beauty Booking Website

Technologies: React, Vite, Tailwind CSS

- Built a responsive beauty website to present services and support the customer booking experience.
- Applied frontend development and UI/UX principles to create a user-friendly interface.

GitHub Repository: zandilekheswa5-sudo/styled-by-mama-bear · **Live Demo:** mama-bear-styles.lovable.app

---

GlowHaus — Beauty E-commerce Store

Technologies: React, Vite, Tailwind CSS

- Developed a beauty e-commerce interface with a product-focused layout.
- Organised product presentation into a user-friendly frontend experience and refined the application UI.

GitHub Repository: zandilekheswa5-sudo/glowhaus

Crypto Market Analyzer

Technologies: Python, Pandas, NumPy, Requests, CoinGecko API, Plotly

- Built a Python project to retrieve and analyse cryptocurrency market data.
- Processed price information and visualised market movements with Plotly candlestick charts.
- Explored price changes and high/low values to support market-data analysis.

GitHub Repository: zandilekheswa5-sudo/crypto-market-analyzer

---

Personal Expense Tracker

Technologies: Python, CSV, datetime, lists, dictionaries, functions, file handling

- Created a Python application for recording and reviewing personal expenses.
- Used dates, amounts and categories to organise records and calculate totals.
- Applied functions and file handling to structure the program and persist records.

GitHub Repository: zandilekheswa5-sudo/personal-expense-tracker

---

AI Client Assistant

Technologies: Python, AI-assisted workflows, automation

- Built a Python-based assistant project to support client-management workflows.
- Implemented client-record actions and task-oriented workflows, including recommendations and task-management features.

GitHub Repository: zandilekheswa5-sudo/ai-client-assistant

MenuFlow — QR Restaurant Menu

Technologies: React, JavaScript, Firebase, QR functionality, Responsive Web Design

Status: In Development

- Developing a digital restaurant menu experience with menu items organised into categories.
- Working on Firebase email/password authentication and owner-side menu management.
- Designing for mobile access and QR-code entry to digital menus.

GitHub Repository: zandilekheswa5-sudo/MenuFlow

EDUCATION

Information Technology Basics — ProgrammingHub **2022**

Web Development — ProgrammingHub **2023**

Data Structures & Algorithms — ProgrammingHub **2024**

IBM Full-Stack Software Developer Professional Certificate

IBM | Coursera | 2025–Present

In progress — 7 of 15 courses completed.

Completed IBM Course Certificates

- Software Engineering Essentials
- Introduction to Cloud Computing
- Introduction to HTML, CSS & JavaScript
- Git and GitHub Essentials
- Developing Front-End Apps with React
- Developing Back-End Apps with Node.js and Express
- Python for Data Science, AI & Development

SOFT SKILLS

Problem-Solving · Critical Thinking · Attention to Detail · Adaptability · Time Management · Communication · Analytical Thinking · Continuous Learning
